CUBA ON BOND AND MORTGAGE.

The Press runs over with appeals for "Free Cuba," with the duty of "recognizing Cuba," with statements of the "feelings of the Cubans," &c., &c. The last outcome of this foreign feeling (we use the word with deliberation) is an authorization of the American Minister at Madrid to urge upon the Spanish Government the demand that the Island be sold to the Insurgents, and the statement that if it be not sold, then this Government will be compelled to recognize the independence of the Insurrectionists. Moreover, in connection with this Mediation is coupled the engagement that the United States stand ready to guarantee the bonds on which the Provisional Government is to transfer the rebellious dependency. In other words, Cuba will be ours on bond and mortgage.

The bond and mortgage matter is open for debate.

Against it are, briefly, its indirectness, its cost, its entangling consequences, its hostility alike to our traditions and our welfare, its insufficiency to please or satisfy either side, and its essential hypocrisy, meaning more than, and not what, it seems to imply.

It is indirect, because it goes at the question in a way that neither gods nor men dreamed of before, and it affects to neutralize an irrepressible conflict with the very foreign element of foreign gold. The direct way to end this internecine strife would be either to close it by force or by negotiation. This does neither. It dismisses all the questions in controversy, and the juggling of the guinea is to help the hurt which honor feels. Money never drew out a national sore, and never will.

The costliness of this project cannot be accurately estimated. But this we know. Under President Polk, Spain scouted at a hundred millions dollars for the Island.—Twice that sum would at least be needed now. Of course, we, as security, would have to pay it. Spain would demand cash, for if she gives up Cuba, both sides will want to be clear of each other as soon as possible, and nothing but money in hand would do. It is questionable if we could raise that sum. It is certain we do not have it. It is certain that it is nearly three times as much as we have as surplus in the Treasury. We would have to borrow it.—Our debt is more than two thousand millions. The taxes are as heavy as in midwar times. Such an addition to our liabilities would prostrate our industries, forbid the reduction of taxes, and five times swallow up any recent decrease of our debt.

The entangling consequences of such a procedure would be most serious. Instantly, here and in Cuba, would spring up a party for Annexation. This would be opposed by as strong a party, to say the least. There would be several States in Cuba.—Some would secede and declare for junction to the Union. The Central Government would try to coerce them back. That would bring us in conflict with our dear and near debtor, in which case there would be everything to pay except what was owing to our Government.

We never did anything like this before. It is entirely opposed to our history. The men who founded our system ever warned us against interference with outside complications. Now is a time to attempt no innovation. A little of past honesty and past sense is needed to pay our debts and pacify our people. When a man's creditors see him living beyond his means and wasting their loans they know him to be a scoundrel. Such will be our character as a Government, if we incur any additional obligation.

Again, neither side would be satisfied.—Any effort at sale would so multiply interests and provoke issues that there would be left a perpetual legacy of disputed claims. Spain would never admit she was whipped. Cuba would never assert that she conquered. It is indispensable, in the ending of any contest, to have a clean victory and a thorough thrashing respectively. Anything less leaves bad blood, and nations, like boys, must have it out, if one does not hallow "Enough!" in the first instance.

Nor does this Mediation mean Mediation. It means Annexation. It means a Sheriff's execution on Cuba when she becomes, as become she will, our delinquent debtor. We cannot pretend that we are ready for Annexation. We have been annexing, and have annexed, considerably within ten years. We have annexed a civil war, a divided Union, a mountainous debt, a Tuscan tariff, and ten million dollars worth of unimportable ice to ourselves, and have had annexed all our commerce, and most of manufactures, to foreign hands. Not even an Administration which reflects the most violent statement of a single party has dared to pronounce in favor of Annexation yet. Had it so pronounced it, would have spoken its real mind. To strike at it through a meddlesome Mediation is imitating the fortunate policy of Mr. Seward.

If so be that we cannot mind our own business in this Cuba matter, let us recognize the Insurgents frankly, open our markets to them, and give them all the assistance we can within the due prescriptions of law.

But let us not proceed on a path which admits neither their high aspirations nor condemns Spain's centuries of tyranny. We want FREE CUBA, not auctioned Cuba. We want, too, a regard for American interests and American honor before all other considerations. It is likely to be bad for the Island for a time that the Sickles offer has been contumeliously rejected. It is better at once for us that it has been. Ultimately, it will be better even for Cuba, because

"A nation freed by foreign hands
Is like a corpse by western science
Provoked to seeming life—to die—
The real life is self-reliance."

A curiosity was lately found in a coal bank near Knoxville, Tenn. It is a kettle, probably of iron or some other hard substance, but from long resting has become like stone. It was incased in a bed of slate stone, just above the coal bed, twenty six feet beneath the surface. From such a curiosity very frequently a most important link in the history of a defunct people is supplied.

The will of the late Jabez C. Howe bequeaths $16,400 to various charitable and religious societies in Boston and vicinity, and $12,000 additional to be paid within one year after the death of his widow.

DOTY'S WASHING MACHINE,

AND THE NEW

UNIVERSAL CLOTHES WRINGER.

Improved with ROWELL'S PATENT PORTABLE CUSHIONS, and the PATENT STOP, are now unquestionably far superior to any apparatus for washing clothes ever invented, and will save their cost twice a year, by saving labor and clothes.

Those who have used them give testimony as follows:

"We like our machine much; could not be persuaded to do without it, and with the aid of Doty, we feel that we are masters of the position."—*Rev. J. Scott, Bishop M. E. Church.*

"It is worth one dollar a week in any family."—*N. Y. Tribune.*

"In the laundry of my house there is a perpetual thanksgiving on Mondays for the invention."—*Rev. Theodore L. Cuyler.*

"I heartily commend it to economists of time, money, and contentment."—*Rev. Dr. Robeson.*

"Every week has given it a stronger hold upon the affections of the inmates of the laundry."—*N. Y. Observer.*

"Friend Doty—Your last improvement of your Washing Machine is a complete success. I assure you 'our machine,' after a year's use, is thought more of to-day than ever, and would not be parted with under any circumstances."—*Solon Robinson.*

"Your Washing Machine has been in daily use in our laundry and the housekeeper expresses herself as highly pleased with it. It certainly accomplishes a greater amount of work, with less labor, and does not wear the clothes near so much as the old fashioned wash-board. By using it one laundress is dispensed with."—*Wm. M. F. Round, Superintendent of Infant Department of St. Catherine's Nursery, N. Y. City.*

PRICES.—A Fair Offer.

Send the retail price Washer $14, Extra Wringer $7 and we will forward either or both machines, free of freight to place where people is selling; and so sure are we they will be liked, that we agree to refund the money if any one wishes to return the machines, free of freight, after a month's trial, according to directions.

No husband, father or brother should permit the drudgery of washing with the hands, fifty-two days in the year, when it can be done better, more expeditiously, with less labor, and no injury to the garments, by a Doty Clothes Washer, and a Universal Wringer.

Canvassers with exclusive right of sale make money fast selling them.

"IMPORTANT FIGURES TO THE PEOPLE."

We are not disposed to hardly conceivable epithets with the *Standard*, in its time-and puerile efforts to apologize for and mitigate the monstrous and criminal conduct of the Legislature, perpetrated from the beginning of its existence, down to the close of its late session. We point the people to the *facts*, and they may make their own comments on them. We repeat that the statistics we gave in our article of the 13th inst., are correct, and we here reproduce them, citing the chapter and page of the forthcoming Acts of Assembly, where the appropriations may be found. Let the *Standard* and the people, too, preserve this statement for future reference:

The Legislative appropriations of money are as follows:

1. For the Chatham R. R Co., Acts of 1868-'69, chap. 7, p. 43,	$ 2,000,000
2. For the W. N. C. R. R Co., Acts 1868-'69, chap. 20, p. 61,	7,000,000
3. For the W. C. & R. R. R. Co, Acts of 1868-'69, chap. 21, p. 67,	4,000,000
4. For the University R. R Co, Acts of 1868-'69, chap. 22, p. 70,	200,000
5. For Williamston & Tarboro' R. R. Co., and appendages, Acts of 1868-'69, chap. 30, p. 90,	2,700,000
6. For the Western R. R. Co., Acts of 1868-'69, chap. 28, p. 80,	1,500,000
7. For the Dortch branch of the R. & G. R. R. Co., Acts of 1868-'69, chap. 29, p. 84,	2,000,000
8. For the Atlantic, Tenn. & Ohio R. R Co., Acts of 1868-'69, chap. 31, p. 90,	2,000,000
9. For the Northwestern R. R Co., Acts 1868-'69, chap. 32, p. 101, [This Act gives $20,000 per mile to several Divisions, which makes the appropriation at least the sum stated. See the Act and the map of the State.]	2,568,000
10. R. R. through the counties of Granville, Person, Caswell, Stokes and Surry, Acts 1868-'69, chap. 92, p. 202,	2,000,000
11. For the Edenton & Norfolk R. R. Co. Acts 1868-'69, chap. 138, p. 342,	850,000
12. For Turnpike Road from Marion to Asheville, and elsewhere, paid in cash,	115,000
13. For Turnpike Road in Craven and Carteret counties,	5,000
Aggregate,	$ 26,970,000

We cite these figures for the purpose of illustrating the reckless character of the Legislature; we did not, in our former article, say what part of these astounding appropriations were valid or invalid, nor does it matter, so far as the profligate Legislature is concerned; it did all in its power to make the appropriations good and valid.—When that infamous body was healed, of its villainies by the Courts, it sought to avoid the action of the Courts by passing other acts; it resorted to every subterfuge and shift to get round the Courts and the Constitution; and this its apologists know as well as we do. We understand the defence of the *Standard* in behalf of the Legislature is not satisfactory to some of the main actors in this nefarious business, but we assure them the *Standard* is *willing* to do all it can for them; it generally remains silent on the subject. The truth is, the action of the Legislature is indefensible.

It is difficult to say how many of these appropriations are valid, *according to the forms of the Constitution*. No one can tell with certainty until the Courts have passed upon them. In our opinion, about *one-third* of them are manifestly invalid. According to the statement made by the Treasurer, in his letter in the SENTINEL of the 13th inst., $16,500,000 of them are valid. He ought to know; he is *Radical* authority, and knows about as well as the *Standard* does; we think he is about correct. Taking it that he is correct, what does the people think, in the first place, of a Legislature so corrupt and prodigate, and that, too, at a time of great public distress like the present, to attempt to increase the debt of the State, for *corporations alone*, to say nothing of other things, to the astounding sum of $26,970,000; and what, in the second place, to have to pay the principal and interest on the sum of $16,500,000, appropriated by that prodigate Legislature?

These bonds, issued to these corporations, are sold in the markets at less than 35 cents in the dollar in gold, so the people realize for these $16,500,000, about $5,600,000. Take this sum from the $16,500,000, and there is left $10,700,000, on which the people must pay interest semi-annually, until the bonds mature, and then pay the principal, for which they get *nothing at all!!* We repeat, what do the people think of these things? Who did this terrible work? The Radical Legislature did it under the manipulation of "carpet baggers" and Gov. Holden, instigated by the great "Ring." Who gets rich by these monstrous appropriations? "Carpet baggers," Gov. Holden and the "Ring." Who grows poor daily by these appropriations made for the benefit of "carpet baggers," Gov. Holden and the "Ring?" The people! the people!

Who will pay the taxes and work hard to get the money to do it with—to pay these unheard-of appropriations which are made to enrich the "carpet-baggers," Gov. Holden and the "Ring?" The people; yes, the people will have it to do!

How long will the people tolerate this Legislature; the Governor; these carpet-baggers, and this "Ring," which, altogether, have a record unparalleled in the history of modern times?

And, lastly for this time, is not the *Standard* a fit, worthy and accomplished apologist for the "carpet baggers," the Legislature, Governor Holden and the "Ring," who have done all this mischief and crime? O, Shame, where is thy blush!

We shall advert to this subject again, by-and-by.

Murder and Arson—Sad State of Affairs in Rockingham—Another war Threatened—Horrid Secrets Disclosed—Every White House to be Burned—Women and Children not to be Spared—Zach. Groom, Chairman of the Board of Commissioners, Arrested.

We refer our readers to the evidence taken before the Magistrate in Rockingham, in the case of the State against Zach. Groom, Radical Chairman of the Board of Commissioners. First is the affidavits of two colored men, Alexander and Julius Watt, who live on the plantation of Groom, and belong, with Groom, to the League.—They swear that Groom offered them ten dollars to burn the houses of Dr. Simpson and others.

This trial and disclosure produced intense excitement throughout the county. Judge Settle and every Radical felt it. It was no doubt the uneasy sensation, produced by the excitement of Groom's trial, that caused the Judge to say the speech we made on Tuesday last, tended to the assassination of Tourgee and himself.

Groom was discharged by the Magistrate and not bound over to Court. The negroes were bound over to Court to answer for perjury, and, for the want of bail, they were committed to jail.

We did not have time to copy all the evidence in the case, before leaving Wentworth.

The general bad character of Groom, with the evidence of Mr. Thomas, is proof, conclusive, that Groom had meditated a horrid revenge upon the men who lived in white houses on the South side of Dan River.

The negro witnesses contradicted themselves but Mr. Thomas did not. He is an old man, and one of exemplary character, as is shown by every witness who testified before the Magistrate.

We heard that Mr. Thomas had once belonged to the Union League. This Radical friend of Judge Settle's, Commissioner Groom, did say to Thomas, "he would not back out at any time from heading a Company and burning every white house on Dan River, except a few. He would have a guard around the houses that even the women and children should not escape."—Yes, the houses and all that was in them were to be consumed. He did not relent until his wife asked if he would "burn up innocent women and little children." Then it was he said, "I might let some of them out, but I don't know whether I should or not."

A negro of the League stated to this man Groom, "there was to be another war, and then he would take them from the cradle up."

There can be no security for life or property where such facts are developed in the trial of a criminal, though he is a high county official.

We are aware of the personal danger to which we are nightly exposed. We have put additional insurance upon our life, by reason of it. The state of feeling existing in Rockingham has made Judge Settle shake in his shoes. He knows that when Groom, or his League, burn all the "white houses on Dan River, except a few," that his own house would not stand long among the "exceptions." We tell the Judge not to be alarmed. He is not in the danger that environs us. Two attempts have been made upon our life by League men, none has been made upon his. Let the Judge join us with a hearty good will in dissolving and putting down the Ku Klux and Leagues, and both his property and his person will be safe. So long as these two secret organizations of murder and mischief exist, there is safety to none. We shall neither give or ask quarters of secret political organizations.

Our speech of which the Judge complained, without hearing it, was productive of some good. When we closed Groom, the Commissioner, stood up before a crowded Court House and declared he was with us in our efforts to dissolve the Ku Klux and the Leagues. We think he was sincere as to the Ku Klux, but we shall not trust him to dissolve the Leagues.

STATE AGAINST ZACHARIAH GROOM.

Affidavit of Alexander Watt:—Alexander Watt being duly sworn, states on his oath that on or about the 31 day of August last, Z. Groom came to my father's house and says, have you been over to the Ku Klux trial? and I said yes; he then said me if they had condemned any of them, and I told him they had not; and he then says, if you will go burn Jo Wayneck's house and Jule Thompson's, and Dr. Simpson's, and old man Frank Simpson's, and George Garrett's, and all the Conservatives and not except Matthew Pritchett's, that that would stop the Ku Klux, and that he would give me ten dollars to do it, and that every Radical in the county would back me in it. I replied that if Mr. Wayneck was to Ku Klux me, I would not injure his stock, but would take my gun and go to his house and shoot him, but would not burn his house or injure his stock. He said no more to me.

Affidavit of Julius Watt:—Julius Watt being duly sworn, says on his oath that about the 3rd of August last, Z. Groom came to my father's house, and says, have any of you been to the Ku Klux trial? Alexander says yes; he says have they convicted any of them? Alexander says no; he says, the only way you can stop these night raids is to set their houses and barns a fire and kill their stock; he said all the Conservatives naming Julius Thompson, Jo. Wayseck, George Garrett's, Dr. Simpson and Frank R. Simpson. I said to him I don't reckon they will Ku Klux us; he said, I don't reckon they will, that there is too many of you here, and about that time I left the house. I also said to him it would not be right to kill the stock for what the men done; he said that was so but burn the men up.

Henry Thomas, having been duly sworn, deposed and saith as follows:

Question by the State.—Go on and tell to his Worship the conversation, if any, that took place between yourself and the defendant Groom, as to house burning and killing stock, when and where this conversation took place.

Answer.—The conversation took place at Mr. Groom's own house, this last summer; but I don't recollect the exact time. He (Groom) observed to me, "this KuKluxing had to be put down." He told me he would not back out from heading a Company, at any time, and go over Dan River and conflagrate every white house on the North side of that river, with some few exceptions. I asked Mr. Groom what he meant by the words *white house*. He replied, big bugs, swell heads, secesh and Conservatives. He said he would have a force to completely guard the houses, and would burn them up, with all that was in them. I then asked him if he regarded all on the North side of Dan River as being Ku Klux. He said he did, or favoring Ku Klux. Mrs. Groom remarked that if she was that wicked and mean she would not let anybody know it. She said, "How in the world, Zack, can you have the heart to burn up innocent women and children?" Said he, "I would probably let some of them out; I do not know whether I would or not."

Question by the State.—Mr. Thomas, are you and Mr. Groom on friendly terms?

Answer.—We are.

Question by the State.—Mr. Thomas, did Mr. Groom, at any time, mention to you anything concerning the great plan which the negroes had concocted to put down the Ku Klux?

Answer.—Yes; he said the negroes had devised a plan of warfare to put down the Ku Klux, which was far superior to anything that General Lee could have devised.

Question by the State.—Did you believe, from private conversations with Mr. Groom, that he was a very dangerous man?

Answer.—I have thought he was; and I think so yet.

Question by the State.—Did not Mr. Groom tell you sometime ago, that if it was not for what little religion he had, all his enemies would go up.

Answer.—Yes.

Question by the State.—Do you know Mr. Groom's general character, if so what is it?

Answer.—I do, it is very bad.

Question by the State.—Did Lewis Watt, or any of his boys ever have any conversation with you about what Mr. Groom should have said to them about burning houses and killing stock?

Answer.—Yes.

Question by the State.—Which one of the negroes made the statement?

Answer.—All of them.

Question by Defendant.—You say this conversation was at my house?

Answer.—Yes.

Answer.—No.

Question by Defendant.—What is my character bad for, is my character bad for truth and honesty?

Answer.—It is.

And further this deponent saith not. Sept. 13th 1869. HENRY THOMAS.

Question by the State.—Did you not tell Dr Sampson, coming from Law's Church that he was a lying scoundrel.

Answer.—Yes as to our own dealings.

Question by the State.—Don't you believe from his general character that he is base enough to incite an insurrection, and hire negroes to burn people's houses and kill their stock.

Answer.—From the evidence of Thomas I should think he was.

Question by Defendant.—Did you not tell me to watch Henry Thomas.

Answer.—I did on your political matter.

Question by Defendant.—Did you not say that he would not do to confide in.

Question by Defendant.—Do you not believe if there had been such a principle on foot that the Defendant, Groom, would have told you of it as soon as any other man?

Question by Defendant.—Are you afraid that I will do you any personal injury?

Answer.—If these reports be true I am, if these reports are not true then I am not afraid of any personal injury.

And, further, this witness deposeth and saith not.

Sept. 15, 1869. C. J. L. WILLIAMS.

JAMES STERRETT, J. P.

Question.—What else did he say?

Answer.—Who told me to burn the houses I said Jack Groom.

Question.—What was the next question Mr. Thompson asked you.

Answer.—He asked me if I would swear to it, I said I would at any day.

Question.—What next?

Answer.—He asked if I would go before a Magistrate an'swear it, and I said yes at any day.

AUSTRALIAN CRYSTAL
TRADE MARK.
GLASS SPECTACLES,
Superior to any other in use, constructed in accordance with the science and philosophy of nature, in the peculiar form of
A CONCAVE CONVEX ELLIPSIS,
Admirably adapted to the organs of sight, and perfectly natural to the eye, affording altogether the best artificial help to the human vision ever invented. Used only by
MORRIS BERNHARDT,
SPECTACLE & OPTICAL MANUFACTURER.

THE ADVANTAGES of these Spectacles over all others are:

1. They can be worn with perfect ease for any length of time in one sitting, giving astonishing clearness of vision, by candle or any other artificial light, comfort to the spectacle-wearer hitherto unknown.

2. How to select Glasses. It requires professional guidance even when a good article is offered. Dr. Bernhardt not only has the best Glasses that can be found in the market, but carefully examines the eyes of his patients, and gives indispensable advice as to the proper selection of them.

3. When the eyes ache or pain through the action of a bright light, such as is reflected from the snow, sunny weather, white paper, and in reading, writing or sewing, or vivid colored bodies; these lenses, by softening the rays, afford a most agreeable sensation and give great relief.

4. These spectacles are scientifically adjusted to every case of defective sight with unerring accuracy, whether arising from age, strain, over work, or premature decay, by Dr. Bernhardt on a new and exact principle, entirely his own, which has seldom failed to be correct.

5. After several years of public practice, adjusting spectacles to patients under every appearance of defective vision, as well as experience, extensive, long established business in his Optical Stores, both here and in Europe, Dr. Bernhardt considers it a sufficient guarantee of his ability to supply such glasses as are best calculated for the assistance of imperfect sight.

6. M. Bernhardt, to signalize himself from the host of pretenders in his profession, with pride submits for inspection, copies of testimonials he has received from medical gentlemen of the most unquestionable respectability and talent in America; also a number of certificates from well known gentlemen of distinction who have used his spectacles—the originals of all which he will be happy to show to those who may request it. The use of any of the following names, or certificates hereunto affixed, without an actual possession of the same, would be a forgery, a capital offence, punishable by State imprisonment.

Testimony of Recommendations from Medical Gentlemen, Professors of the highest Opthalmic talent in Raleigh, N. C., and in the Union

Raleigh, Aug 24, 1869.

I have carefully examined Prof. Bernhardt's Spectacles, and take great pleasure in recommending him to those who, having defective vision, can be made to see more clearly and distinctly by the use of glasses. He has wonderful skill in this respect. The pair he has supplied me with are of Brazilian Pebble, of most superior quality and excellent finish. They enable me to see how to read, or write, at the ordinary focal distance, as clearly and distinctly as I did twenty years ago. I very cheerfully bear testimony both to the Professor's skill and to the wonderful properties of his glasses.

CHAS. E. JOHNSON, M. D.

Raleigh, N. C., Aug. 24, 1869.

I take great pleasure in saying that the Glasses I have obtained (and am now using) from Dr. M. Bernhart are to me a source of greater comfort than any I have previously used; my own experience fully sustaining the testimonials of excellence and commendations which he has received from gentlemen of science, and high character, in various parts of our country.

WM. G. HILL, M. D.

Raleigh, N. C., Aug. 24, 1869.

I take pleasure in stating that I have examined the glasses of M. Bernhardt, Oculist and Optician, and think they are of the best material, and constructed on scientific principles. I would advise those in need of glasses to call on him.

Very respectfully,
F. J. HAYWOOD, M. D.

Raleigh, Aug. 24, 1869.

Doctor Bernhardt called at my house and exhibited to me his fine assortment of Australian Crystal Glasses, which are of a very superior quality and workmanship. I take pleasure in saying that the glasses I have obtained from Professor Bernhardt are to me a source of greater comfort than any I have previously worn and cheerfully commend them to those who may be in need of glasses.

W. H. McKEE, M. D.

Raleigh, Aug 25, 1869.

After an attentive examination of the various glasses in the possession of Dr. M. Bernhardt, accompanied with his explanation of his mode of preparing and adjusting them, it is with great pleasure I state my belief of his great skill, and of the benefit which those needing glasses must derive from his assistance.

R. S. MASON, D. D.,
Pastor Prot. Episcopal Church.

Raleigh, Aug 25, 1869.

Dr. M. Bernhardt, Oculist and Optician, has fitted me with a pair of Spectacles superior to any article of the kind I ever had before. The material is Australian Crystal, the quality of which renders vision very clear and distinct, and enables me to read and write with as much ease as I did ten or twelve years ago. His assortment of glasses is most complete and the finish apparently perfect. I take great pleasure in recommending him to all who need their sight improved.

DRURY LACY, D. D.,
Late Pres't. of Davidson College, N. C.

Raleigh, Aug. 26, 1869.

It gives me pleasure to bear witness to the extraordinary value and excellence of the glasses prepared and furnished by Prof. Bernhardt. To those who need artificial aid for their vision he will be of the highest service.

Raleigh, March 28, 1868.

I have examined a large number of the glasses of Prof. M. Bernhardt, and with pleasure certify to their superior excellence. I wear a pair of them and can see as perfectly as I could in my youth. They are the best I ever used, and I therefore heartily recommend him to the patronage of the public.

EXECUTIVE DEPARTMENT,
Columbia, June 19th, 1868.

Sir: I have made a full and satisfactory test of the Spectacles procured from you, and I have the pleasure to say that the glasses are better adapted to my eyes than any I have ever used. The facility with which you fitted the glasses to my eyes, furnished me conclusive evidence of your scientific skill in optics and your thorough experience as an Oculist.

Your attainments in your profession entitle you to the confidence, patronage and gratitude of the public. I have the honor to be,

Very respectfully yours,
JAMES L. ORR,
Governor of South Carolina.

Prof. MORRIS BERNHARDT, Charleston, S. C.

Wilmington, March 31, 1866.

I have examined a number of Professor Bernhardt's Glasses and am now using a pair of them, and take pleasure in testifying that they enable me to see better than any others that I have used, while its adjustment there seem to be some adapted to remedy any kind of defect in vision.

THOMAS ATKINSON,
Bishop of North Carolina.

Nashville, April 27, 1867.

The difference between Dr Bernhardt and most Opticians is, according to my observation, that while they pretend to more than they know, he knows more of his business than he pretends.

THE SENTINEL.

CITY AND STATE ITEMS.

SATURDAY, SEPTEMBER 25, 1869.

Thos. N. Harris, as Business Clerk, is authorized to make contracts and give receipts, &c., &c.

The weather at Raleigh, N. C., as indicated by the Thermometer at the office of the North Carolina Land Company, Tucker Hall, September 24th:
9 A. M., 78. 3 P. M., 86.
12 M., 82.

NEW ADV.—House keepers will notice the announcement of Carpet Warp, and farmers that of articles for the farm, by T. H. Briggs.

Mule lost, for which $10 reward is offered.

RECEIVING.—Andrews, the clothing man, at Lougee's iron front, Fayetteville street, next door to Tucker's, is receiving the largest stock of gentlemen's clothing, &c., ever opened in Raleigh. He will speak for himself through the columns of the SENTINEL in a few days.

NO MASS TO-MORROW IN THE ROMAN CATHOLIC CHURCH.—Father McNamara having been called away from the City on business connected with his Ministry, the public are informed there will be no Mass to-morrow in St. John's Church. Sunday School will be held at the usual hour; and at 10½ o'clock A. M., and at 5 P. M. the congregation will assemble for prayer, singing, and private devotions.

AUCTIONS TO-DAY.—Wagon, bedsteads, &c., James M. Towles.

Dry Goods, Shoes and other desirable articles to-night by D. C. Murray.

NEW ARRANGEMENT.—A house divided against itself cannot stand, but one divided in favor of itself may do a good business, as Mr. B. P. Williamson is likely to do, who has leased the new brick store just finished off by John R. Williams, Esq., on the South side of Martin Street, opposite the store at present occupied by him, which he is filling with choice Groceries for the Fall trade. He will continue, also, at his present location.

Those intending to avail themselves of the assistance of Dr. Bernhardt, optician and oculist, will do well to give heed to the matter at once, as he informs us his stay in Raleigh is limited to one more week.

RAIN.—We had a fine shower of rain last night, which tended to allay the dust, and add to the comfort of man and beast generally.

THE N. C. LAND COMPANY.—This Company is beginning to realize some of the fruits of its energetic and systematic labors in bringing North Carolina lands to the notice of persons in other States, desirous of settling farms among us. It has recently effected a number of sales to persons from the North, mostly in the Eastern part of the State, and the number of negotiations for farms is daily enlarging.

HYMENIAL.—We learn through a friend that Judge R. R. Heath, formerly of North Carolina, but now a resident of Memphis Tenn., was married a few days ago to Mrs Brower, from one of the Western counties of this State.

Messrs. Boswell, Slack & Co., of Baltimore, offer their services to our readers, as General Commission Merchants, for the sale of products and produce of every description, and prepared to make liberal advances on the same. See advertisement.

There can be no stronger endorsement of Silver Ware, than the remark one frequently hears. "Oh" its almost as good as Kirks." The old and extensive establishment of Sam. Kirk & Son, has always been one of the features of Baltimore, and their watches and jewelry are as reputable as their standard silver ware. See card in another column.

The Greensboro' *Patriot* is pleased to see that the grading of the N. W. N. C. Rail road is drawing to a close, and will be completed from Greensboro' to Salem by the 15th of October.

The work was done directly by the Company, by individual and county subscription, without using any of the bonds to meet expenditures, and at twenty five to thirty per cent below the Engineer's estimates.

The Charlotte *Times* says a bale of cotton will be sent to the State Fair from Mecklenburg county, that will take the premium, if the Edgecombe farmers are not wide awake. Look out for your laurels, Edgecombe.

We hope our friends in the Mecklenburg region will take care to be represented in other respects as well as in cotton, we know they are capable of making a good showing.

THE LOUISIANA EQUITABLE LIFE INSURANCE COMPANY OF NEW ORLEANS.—This is one of the very best companies in the country. It has the endorsement of Bishop Wilmer, Gens. Beauregard, Hood, Harry Hays and the leading men of New Orleans. General Beauregard says: "Its Officers and Directors have been selected from our most reliable and intelligent citizens.

Instead of sending $40,000,000 annually North, our citizens can find better companies at home.

Joseph Ellison, President, New Orleans, Louisiana.

Hon. R. M. T. Hunter, in a letter to a Kentucky gentleman, on Chinese immigration, says he does not regard this class of population desirable in Virginia or Kentucky, but thinks it may be of great service in the cotton, rice and sugar States. He is of the opinion that the question will settle itself, under the law of self-interest, irrespective of the views of politicians or the legislation of Congress.

We clip the following from the Tarboro' *Southerner*, whose Editor passed through this city last week, we suppose "going to see his uncle."

THE YARBORO' HOUSE, RALEIGH.—Passing through our Capital City, a few days since, we had an opportunity of once more testing the qualities of the above well known Southern House. It is needless to say that, in common with his other guests, we were treated in the most princely manner by the popular propriety, Blair, who really seems to have at last discovered the true secret of Hotel keeping. The Yarboro' House has become deservedly celebrated throughout the country for its excellent table, attentive servants and superior accommodations, to an extent reached by no other House in the South. Our own observation proved that that it has in no wise deteriorated in reputation, but, if anything, was increasing in its many superior qualities.

The great majority of visitors to the "City of Oaks" unhesitatingly seek quarters with mine host, Blair, of the Yarboro' House.

GENERAL NEWS.

It the course of a few weeks a proposition will be made to the government of Prince Edward's Island by the government of Canada in regard to the terms on which that island will be received into the confederacy. Newfoundland is also agitated by the confederation discussion. The Unionists are well organized, and have a large part of the press in their favor. They have issued a campaign paper and look forward with confidence to victory at the election. The anti-Unionists are not idle. Their steamer has made trips about the colony carrying anti-Union speakers, and no labor is spared to defeat the confederation.

SNOW HILL, N. C.

"I am much pleased with both the Spellers and all the Readers; and as to the series of Geographies by Monteith & McNally, I have long used no others when these could be obtained.

From Rev. ALDERT SMEDES, D. D., Rector of St. Mary's School, Raleigh, N. C.

RALEIGH, N. C.

I have examined the Geographies—Monteith's [No. 4] and McNally's [No. 5] and find excellencies in both, which eminently entitle them to a wide circulation. It is my purpose to introduce Monteith's [No. 4] into my school. I give it the preference for the information which it gives on the subject of Physical Geography. The maps and questions in both works seem to me to be admirable. ALDERT SMEDES.

From J. W. GULICK, A. M., Prin. Male Academy, Goldsboro', N. C.:

GOLDSBORO', N. C.

I find your books are in use in many Schools in this section. The teachers speak in the highest terms of your Readers and Geographies, and of Peck's Ganot in particular.

J. W. GULICK.

From Col. WM. BINGHAM, Prin. Bingham School, N. C.

The introduction of so much valuable matter on the subjects of Physical Geography and Geology, and in a form so simple and intelligible, makes it (Monteith's Intermediate Geography) in my judgment, a charming school book.

"We shall introduce Davies' Bourdon, perhaps others of your books."

From Dr. CLOSS, Prin. Durham Academy, N. C.:

DURHAM, N. C.

I design introducing the present session McNally's Geography and Davies' University Arithmetic; also Boyd's Elements of English Composition. M. CLOSS.

From M. L. LITTLE, Esq., Prin. Pleasant Hill Seminary, Newton, N. C.

NEWTON, N. C.

Will introduce the University Arithmetic next term. Have examined it with much satisfaction, An admirable work. M. L. LITTLE,
Prin Pleasant Hill Seminary.

From Rev. S. IVEY, Prin Auburn Academy, N. C.:

AUBURN, N. C.

Monteith's Geographies are excellent works, and I shall introduce them into my school.

STINCEON IVEY.

Prof. WM. A. OBENCHAIN, writing from Hillsboro' Military Academy, says:

The superior and durable style of binding of your works is a very great recommendation—one with which I have long been favorably impressed.

From J. E. DUGGER, Esq., Prin. Male Academy, Warrenton, N. C.

WARRENTON, N. C.

"Davies' Mathematics" was adopted by me in 1858, and, up to this time, I have examined no works superior to them as a whole.

I have examined, with a view of introduction, "McNally's Geography" [No. 5] and "Peck's Ganot's Natural Philosophy." I consider them most excellent works, and shall put them in my boys' hands, at the earliest period. The Philosophy is truly an enticing work and must meet with universal commendation. J. E. DUGGER.

From W. C. KERR, State Geologist of N. C.

I regard Monteith's Physical and Intermediate Geography as one of the best books of its kind. It has several points of superiority over most primary Geographies; not the least of which, especially in the eyes of the juveniles, will be found in its attractive and very graphic illustrations. Another is the truly wonderful amount of substantial and really scientific information conveyed by these wood cuts, and the concise and lucid descriptions appended. But the chief excellence consists in this, that Geography is here treated from the only true and rational standpoint, viz: of Geology and Physical Geography; so that the learner arrives, by a natural and easy process, at the true conception of the earth as an organized whole; the designed result of successive changes and modifications, under the control of physical laws, constituting a true growth from a chaotic germ through manifold stages of progress, all pointing forward to its destined end as the home of living beings, and finally of man.

From Rev. G. D. BERNHEIM, Principal of Mount Amoena Female Seminary, Mount Pleasant, N. C.

MT. PLEASANT, N. C.

I have introduced your National Series of Readers with great satisfaction to myself and to our teachers. We find them to be excellent, just suited to our purpose.

With Davies' Mathematical Series we have been long familiar, and can find no good reason for changing them.

In the Primary Department we have Monteith's Geographies, and in the advanced classes we have introduced Peck's Ganot, with much acceptance. G. D. BERNHEIM.

From Prof. JOS. H. FOY, President Stantonsburg Scientific High School, N. C.

WILSON, N. C.

I have carefully examined the claims of the different Series of School Books most prominent before the public at this time. I have tested the merits of many of them in the school and lecture room, and feel no hesitancy in pronouncing the "National Series of Readers and Spellers" the best with which I am acquainted. I shall henceforth use no others in my school, and I shall furthermore use my influence to secure their adoption into other Seminaries in this section.

I use Davies' Mathematical Series in my school I consider his works incomparably superior in many particulars, even to Stoddard's Course, which is saying a great deal. In fact, I consider it the highest encomium in my power to bestow.

I use Monteith's Series in my school. They afford a gradual but thorough and systematic progression, from the simplest rudiments of science, up to a development sufficiently exhaustive for all ordinary educational purposes. Their very superior merit has led me to discard —— which stands next best on the list.

McNally's, the fifth book of the course is decidedly the *chef d'oeuvre* of Geographies. No competent instructor can examine it for an hour without being struck with its extraordinary merit. J. H. FOY.

From the Statesville, N. C. *American*, February 20th, 1869.

We would call the attention of Teachers in Western North Carolina to the valuable School publications of this firm, which are equal to any in the Union.

Messrs. Barnes & Co., of New York, are now issuing large editions of these Standard School Books for the Southern States. The series consists of the National Primer, or Word Builder, National Elementary Speller, The National First 2nd 3rd, 4th and 5th Readers. This firm will allow no competition in the price of books published by them, which are among the best in the States.

From the Raleigh *Daily Progress*, Feb 20, 1869.

NATIONAL SECOND READER.—We have never examined a volume of its class which we could commend more cordially to parents and teachers.

From the N. C. *Presbyterian*, March 7, 1869.

NATIONAL FIRST READER.—We recommend it to all who desire a valuable book of instruction for beginners.

From the Wilmington, N. C. Daily *Herald*, 1866.

"The National Series has attained probably a higher reputation than any other complete series of School Books now in existence.

WASHINGTON.

WASHINGTON, Sept. 24.—Count Catacazy, Russian Minister, was received by the President to-day.

The President has appointed James M. Dickerson Assessor of the 6th Tennessee District, and Wm Rule Assessor of the 2nd District.

The Treasury Department has ordered three new revenue cutters.

The Agricultural report states in regard to corn, unless the close of the season should prove very favorable, there must be 150,000,000 bushels less than a large full crop. Regarding Cotton, there will be a reduction in the yield from the Carolinas to Alabama, and a material increase from Mississippi to Texas; Georgia, Florida, and South Carolina have suffered most, mainly from drought, and in a few localities, from rust, the caterpillar and boll worm. Our estimates make the increase in Mississippi, Louisiana and Texas, ten, twelve and fourteen *per cent*. The probabilities at present favor a yield of 2,750,000 bales.

The Wheat crop is large and the quality in the South decidedly superior.

Nothing is certainly known in regard to the Cabinet meeting to-day. Texas was up, and it is stated on quite reliable authority, that the determination was reached to throw the Executive influence in favor of Davis, "extreme" candidate for Governor. In furtherance of this policy, J. G. Tracy, Chairman of the Republican Executive Committee, is appointed Postmaster at Houston, and Palm, Postmaster at Austin. It is stated on the same authority quite good, that other Federal officers opposing Davis, will be removed.

It is worthy of notice, that while the above items are thrust into the hands of Reporters, all other action of the Cabinet is quite concealed.

VIRGINIA.

RICHMOND, Sept. 24.—There was an extraordinary scene in the Hustings Court to-day. George Washington, colored, was convicted of horse-stealing, and sentenced to ten years in the Penitentiary. Being asked what he had to say he turned to the large negro audience in the Court House and warned them against Yankees and carpet baggers, who, he said, were the ruin of their race and the State. He hoped when he came out, ten years hence, to find the star-spangled Banner waving over Virginia, and the State governed by her own people, and all the carpet baggers in the bottom of the ocean. The speech created considerable excitement.

The City Council to-day, appropriated $10,000 to arrange the Fair Grounds, for the State Fair, which comes off, Nov. 2nd.

Gen. Canby has printed his correspondence with prominent Virginians, relating to the test-oath. The letters show that as early as June 4th, a month before the election, he had, in reply to letters of inquiry, announced his intention of requiring the test-oath of members of the Legislature.

FROM WILMINGTON.

WILMINGTON, Sept. 24.—The Steamer Volunteer and Rebecca Clyde have arrived from New York.

In consequence of the low stage of the rivers, naval stores are kept from market.

UTAH.

SALT LAKE CITY, Sept. 24.—Thomas U. Bates has commenced suit here against the Union Pacific Railroad, for $39,000,000, for money and supplies furnished the Company.

MARKETS.

NEW YORK, Sept. 24.—Cotton opened firmer, closed heavy with the advance lost, sales of 1,200 bales at 29; Flour dull, declining, superfine state 6 to 6,15, Wheat 1 to 2 cents lower, winter red Western 1,50 to 1,55, Illinois 1,45, white Michigan 1 65; Corn closed 1 to 2 cents lower, mixed Western 1,11 to 1,11½; Pork unsettled, 31¾; Lard irregular, kettle 18¾ to 19¾; Whiskey a shade easier, 1,25; Groceries quiet; Turpentine 1,43¾ to 5; Rosin steady; Freights dull.

Governments closed quiet; 61's 22¾; Southerns dull; Tenn's 61; new 56; Va's 55; new 57; N C's, 52; new 46. After the day's unparalleled excitement in Wall Street, the market closed comparatively calm. Money was unsettled to the close, when it was quoted at 7, with ¼ commission. Gold closed at 32. The transactions were so enormous that the Gold Exchange Bank could not settle at the regular hour, causing great confusion. It is impossible to tell, at present, what large firms, if any, have failed; several small firms, it is known have suspended.

Sterling closed at 7½ to 8.

COTTON PRESS.

A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS astonishes all who see it, and the more so that a power so simple should so long have been unappropriated. With this Press two men can do all the packing or pressing of a 500 pound bale inside of eight minutes; and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring, and we would advise all persons wanting presses to withhold buying until they examine this.

THE PRESSES are now being manufactured at the SASH AND BLIND FACTORY OF THOS B. BRIGGS. All are assured that as between this and any other there is no argument as to its merits over all others. With the irons, any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in explaining its merits.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It issued more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 588 policies, received an income of seventy-eight thousand dollars, and possessed nett assets summing up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13,337 new policies, more than any other Company, except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, securely and profitably invested nett assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."

SUMAC AND OAK BARKS—NEW SOURCES OF WEALTH IN VIRGINIA AND THE CAROLINAS.

The articles which appeared in the *Journal* last fall encouraging the people of Virginia to extend the culture of sumac and its preparation for use, setting forth its commercial advantage to the State and the pecuniary profit to those who would embark in its culture and shipment, have proved of the most beneficial results to the people. The articles enlightened them as to the commercial value of sumac, and instructed them how to utilize it in the way most acceptable to the trade and most profitable to themselves, all of which has tended greatly to extend the sumac traffic in Virginia—as I am assured by prominent dealers in this city. This is most fortunate to all the people of Virginia, as it will tend materially to supply the deficiency which a depleted harvest has brought upon them.

The drouth has been fearful all over Virginia; so much so in many of the counties as to render the crops almost worthless for harvesting. Were it not for the many natural resources with which Providence has favored Virginia, the utilization of which will furnish ample means for procuring all the necessaries of subsistence, the suffering of the people in many of the counties would be fearful to contemplate. As I have before said, the *Journal* has already done good service to the people of Virginia by encouraging, and in many of the counties inaugurating, a branch of industry destined to be of incalculable advantage for all time.

The material interests of the people of Virginia and North Carolina, which the *Journal* has so providentially enhanced, may be greatly extended by encouraging the further development of such other elements of productive wealth as comprise the most prominent of the many ready resources so abundant and so prolific in the soil of those States.

I have just returned from a somewhat extended tour through the counties of Eastern, Middle, Southern and Southwestern Virginia, and through the border counties along the Northern boundaries of North Carolina, and I will assure you I was much surprised at the immense quantity of oak forest I everywhere saw, including the chestnut, oak, red oak, yellow spotted willow, water, post and white oak, all invaluable for the superior tanning properties of the bark. Black oak is found, too, in great abundance all through this region of country. The bark of the black oak, as you are aware, constitutes one of the most valuable dyeing materials in use. Ground into quercitron it is worth $50 per ton. In London it is quoted as selling at $70 gold per ton, and at Antwerp, Hamburg, Berlin and Leghorn at considerable advances on the English prices for American quercitron. Made into flarine it sells at $1 per pound. The color of the black oak is used for giving the ground colors to the most costly fabrics made in prints.

Interested to some extent in the manufacture of leather, curiosity prompted me to ascertain as far as possible at what price per cord oak bark in its crude condition could be delivered at the stations along the railways and the landing places on the James river and Kanawha canal. I found the price to vary from four to eight dollars per cord, averaging as near as I could judge, about six dollars per cord. I learned also that the average cost of transportation from the same localities to this or Boston would be about eight dollars per ton.

Now, Mr. Editor, the manufacture of leather in Eastern Massachusetts, Rhode Island and Connecticut calls for an annual consumption of three or four hundred thousand cords of bark or its equivalent in the concentrated extract of bark, which is supplied mainly from the hemlock forests along the northern frontier of New England and New York, and from beyond the Canadian border. Delivered in the slab unroasted at the tanneries it costs the tanner from fifteen to twenty three dollars per cord. Now every tanner knows that a cord of hemlock bark with the moss taken off is worth one third more than if unroasted.—Every tanner knows that oak bark roasted is worth one third more per ton than a ton of hemlock bark roasted. Every intelligent manufacturer of leather understands that leather tanned with an equal mixture of oak and hemlock bark gives more weight, and greater value is imparted to the stock, rendering it more desirable and more profitable.

The reason why the tanners of this and the New England States use hemlock bark exclusively in the manufacture of their leather is simply because these States produce only the hemlock. The oak they have rejected in consequence of the distance of supply. Had Virginia and North and South Carolina been peopled by a race as inquisitive and ambitious as are those on our northern frontier, they would long since have found that an unlimited market existed along the New England coast for the oak bark, which they have hitherto suffered to go to waste.

No effort as I can learn has been made even since the construction of the numerous railways from the Atlantic ports back into the oak forests of Virginia, North and South Carolina, Georgia and Florida, to transport bark to the very heart of the leather trade of New England cheaper than it can be transported from beyond the Canadian border over the long railways leading to Boston. The great oak forests are also penetrated by innumerable navigable streams, which offer cheap and convenient transit to tide-water.

The art of converting the astringent properties of oak and hemlock bark into an imperishable extract, which is being successfully introduced in various parts of the remote forests where bark exists only the labor of peeling, should be noticed here.—The great cost of the necessary appliances for this manufacture and the practical chemical skill required, confine the profits of the enterprise to the few, who can control the necessary capital and skill. The limited pecuniary means of the people of Virginia places its advantages beyond the reach of the mass of the people. As all tanners prefer the use of crude bark to concentrated extract, however perfect its manufacture may be, it is clearly for the interest of the people of the Atlantic oak States, where bark can be had in abundance, contiguous to the facilities of cheap transportation to tidewater, to grind and ship their bark in bags like those used for transporting sumac, as it prevents waste and saves the cost of handling bark in the slab in the several transhipments through which it must necessarily pass in reaching its destination. Tanners not only prefer it in this shape, but the bark, after being deprived of its tanning properties, will command a ready sale to the chemical works in the towns contiguous to the tanneries—the former paying from six to eight dollars per ton for it. This will reduce the cost of transportation to about the price of transporting its equivalent in extract made from the same quantity of bark.

Now, Mr. Editor, should the *Journal of Commerce* set forth these facts to the people of Virginia as earnestly, clearly and ably as it inculcated the importance of the culture and preparation of sumac, it would benefit alike the people of Virginia and the leather trade of the northern and eastern States.

Oak bark raised, ground and shipped in bags to this and the eastern markets will eventually form one of the most valuable of the commercial industries of the Old Dominion, and your paper will deserve the credit for urging upon the people of Virginia to take immediate steps in the inauguration of an enterprise so essential to their prosperity.

J.

For the Sentinel.

At a meeting of the Directors of the North Carolina Real and Personal Estate Agency, held on the 31st day of August last, I was elected President. On the next day a drawing was advertised to take place on the 19th day of November, 1866, and my name published as President. This advertisement was made without consultation with me, and before the affairs of the Company had been looked into. Upon examining into them, I discovered that the assets were not sufficient to justify the announcement, and I immediately called a meeting of the Stockholders for the 16th day of September. At the meeting of the Stockholders on that day, I stated the condition of the affairs of the Company, as well as I could ascertain them from the books as I found them. The following resolutions were therefore adopted:

Resolved, That the President appoint a Committee of three to examine the books and papers of the Company, and ascertain, if possible, what disposition has been made of its funds.

The Committee under the resolutions reported that they had not sufficient time for a thorough examination, and offered the following resolution:

Resolved, That the President be directed to employ two competent men to examine thoroughly into the affairs of the Company; to ascertain and report what disposition has been made of its funds; to put its present books into the best possible condition, and to open a new set of books upon such a system as shall secure the affairs of the Company from confusion hereafter.

This was amended so as to allow the President to appoint a third person, to be employed for not more than five days; and thus amended, passed.

The Chairman of the Committee also offered the following:

Resolved, That the thanks of the Stockholders are due, and are hereby tendered, to R. G. Lewis, Esq., Treasurer of the Company, for the faithful manner in which he has discharged his duties.

This was adopted, and it was then further

Resolved, That the Board of Directors be requested to make an assessment of three per cent. upon the stock of the Company, to be paid as follows: one per cent. within 15 days, and two per cent. on the 15th of October next.

Resolved, further, That the Stockholders who have already made payments of cash upon their stock, be allowed credit to the amount of such payments, upon this assessment, and if this assessment be not sufficient to meet the liabilities of the Company, the Board of Directors shall increase the assessment until it is sufficient.

Resolved, That the President is hereby requested to enquire into the matter of money paid to J. G. Hester, the late President, at Wilmington, for tickets and stock sold there, and to require the said J. G. Hester to pay said money to the Treasurer, or to account for it.

After the adjournment of the Stockholders, a meeting of the Board of Directors was called for Saturday the 18th inst. At this meeting, the following Directors, with the President, attended: Robert G. Lewis Esq., and Messrs. J. G. Hester, J. C. Hester and Wesley Whitaker. After the proceedings of the Stockholders were read, R. G. Lewis Esq., offered the following resolution:

Resolved, That an assessment of three per cent., on the stock sold, be made—that one per cent of the same be paid on the 1st of October, one per cent on the 15th of October, and one per cent on the 30th of October.

Resolved, Further, that the Stockholders who have already made payments of cash upon their stock, be allowed credit to amount of such payments, upon this assessment. Mr. J. G. Hester moved to amend by striking out all after the words "30th of October," and inserting the following:

Resolved, Further that the provisions of this resolution shall not apply to the stock sold by the late President in Wilmington, upon which 10 per cent was paid. This was accepted by Mr. Lewis, and the resolution, after discussion, passed.

The public can see from this action of the Stockholders, as well as of the Directors, that steps are being taken to raise money sufficient to place the Company upon a sound footing. I assure the public that every proper means in my power, as an individual, and as an officer of the Company, will be resorted to, to put right the affairs of the Company, and save those who have taken tickets from loss. No scheme will be advertised until this is accomplished, and then parties holding tickets can have the option to take money or exchange them for others. I feel a deep personal interest in the getting of the affairs of the Company straight, in addition to the interest I feel as an officer. My name was connected with it as one of the supervisors after the first drawing. While so acting I had no interest in the Company, and my only duty was to see that the drawings were fairly conducted, and I can assure the public that they were.

Very recently, before my election as President, I purchased some stock, but never knew anything of the financial condition of the Company until after my election.

WHY IS IT BEST TO INSURE IN THE

BROOKLYN LIFE?

BECAUSE,

AMONG OTHER REASONS, IT IS THE ONLY COMPANY IN THE UNITED STATES WHICH PRESENTS THE GREAT FEATURE OF GUARANTEEING DEFINITE

CASH SURRENDER VALUES,

IN CASE A POLICY IS FORFEITED FOR NON-PAYMENT OF PREMIUM.

ALL POLICIES

Are non-forfeitable after two full Annual Premiums have been paid.

The policy-holders of this Company may travel or reside where they choose—anywhere on the Globe.

The BROOKLYN LIFE has paid, and now pays to its policy-holders, LARGER DIVIDENDS than ever before paid by a Life Insurance Company.

DIVIDENDS ARE PAID IN CASH,

or applied to the permanent increase of the policy, or left with the Company to accumulate at interest, in either way, at the option of the policy-holder.
